10 / 8.4

10th
H.B.S.E
📅 2015

GPA
10 / 8.2

SKILLS

FrontEnd Technologies
HTML, CSS, javaScript, jQuery Bootstrap, Reactjs, TypeScript

BackEnd Technologies
NodeJs, ExpressJs

DataBases
MySQL, SQL, Redis

Others
RestFull API, Postman, SharePoint

EXPERIENCE

Software Developer
Credent Infotech Solutions LLp
📅 08/2022 - Present   📍 Delhi

PROJECTS

Renew Power
develop and deployed web-based framework to visualize and represent DSM losses across ReNew. T This dashboard was used for data analysis, report generation and ultimately reduce human effort and eliminate errors in calculation. Re.DSM is acting as a MIS tool where user is can performing data analytics with the help of different visualization and quality control toolsresulting in reduction of DSM losses.

Expense Management System
Expense management software is a type of application that simplifies the receipt-to-reimbursement process by automating much of it. With this software, firms can manage travel bookings, automate expense report submission, streamline approvals, accelerate reimbursements, and track expense claims in real time.

Contract Management System
Contract management is a crucial process in any organization that deals with multiple vendors or suppliers. It ensures that all parties fulfill their obligations and that the business is protected from any legal or financial repercussions
